

Leone Group Seminars
Fall 2009
Tuesdays, 5:30 PM
775A Tan Hall

| Date | Speaker | Topic |
|---------------|----------------|-------------------------------------------------------------------------------------------------------|
| August 25 | Satchin | Low temperature kinetics |
| September 1 | Andy | Ultrafast studies of nanocrystals |
| September 9* | Ian Smith | The Elusive HO ₃ Radical: Kinetics of Formation, Thermochemistry and Atmospheric Role |
| September 11* | Erik | Photofragment dynamics by x-rays |
| September 15 | NONE | Steve at DOE contractor's meeting |
| September 22 | Christine | Ionic liquids ultrafast dynamics |
| September 29 | Tina/Colby | Undergraduate research |
| October 6 | Oleg Kostko | Photoionization spectroscopy |
| October 13 | NONE | As many as possible try to attend OSA in San Jose, laser science conf. |
| October 20 | Jared | Aerosol reactivity |
| October 27 | NONE | Steve at Cal Tech, watch for dates when Allison Pymer and Ming-Fu will practice GRCs, and other talks |
| November 3 | Jia | Neutral imaging science |
| November 10 | Amy | Nanocrystal intermittency |
| November 17 | NONE | |
| November 24 | Phil | Attosecond plasmon dynamics |
| December 1 | NONE | UXSL workshop in Berkeley |
| December 8 | Justine | Molecular attosecond science |
| December 15 | Ben | Electron angular imaging science |

*Seminar located in the ALS conf. room – LBNL Bldg. #6, Rm. #2202 @ 4:00 PM
